

PMBOK Process No 32 – Perform Integrated Change Control

By Ray Myers, Jr., PMP

Process Group: Monitor and Control

Knowledge Area: Integration Management

Process #32: Perform Integrated Change Control

PMBOK V4: 4.5

Perform Integrate Change Control is the process of reviewing all change requests, approving changes, and managing changes to the deliverables, organizational process assets, project documents, and the project management plan.

Inputs

- Project management plan
- Work performance information
- Change requests
- Enterprise environmental factors
- Organizational process assets

Tools and Techniques

- Expert judgment
- Change control meetings

Outputs

- Change requests status updates
- Project management plan updates
- Project document updates
